25X1D

Recent photography reveals construction activity at the Gorkiy Airframe Plant Ordzhonikidze 21 located 4.5 nm WNW of the center of the city of Gorkiy, USSR (Figure 1). A comparison of [REDACTED] photography indicates that major expansion includes the completion of a large assembly building (695 by 395 ft) on the SW side of the plant. The completion of this assembly building adds 274,525 sq ft to the

production area of the plant making a total of 2,824,375 sq ft.

Earth scarring in the NE portion of the plant suggests that modifications are also being made in that area as part of the expansion program.
